

THE SMITH FAMILY

The Smith family was referred to us after the father, Ron, became critically ill and the family lost their housing. As Ron's discharge from the hospital neared, they faced the very real possibility of him being released with nowhere to go.

Once enrolled in our program, the family began to experience a renewed sense of hope and stability. With support and encouragement from our Family Promise SJC staff, the mother, Rachel, enrolled in the *Come Back Kids* program and is now on track to earn her high school diploma. The family worked tirelessly to access every available resource and took proactive steps to secure, and build up their skills to maintain, stable housing.

Now settled into their new home, Rachel and Ron share what they're looking forward to next: "We look forward to starting a fresh and healthy new beginning in our new home. My son is most excited to get a bunk bed and to share a room with his big brother, Troy."
